

Bolsa de Valores de Colombia

Bogotá D.C., October 9 2020

Dear

Ms. Carolina Ferro

Investor Relation Director

We are pleased to inform you that the IR Committee of the Colombian Stock Exchange (bvc), in its session on September 11th, approved the award of *Issuer Recognition – IR* to **ORGANIZACIÓN TERPEL SA**, which will be valid for one year from this date until the next ordinary session of the Committee when renewals will be considered.

For **bvc** it is very gratifying to have issuers that voluntarily adopt higher levels of disclosure, seeking to strengthen their relationship with investors. Therefore, from bvc we would like to extend our congratulations to **ORGANIZACIÓN TERPEL S.A.** for being part of the ecosystem of companies that have been recognized.

This is also the opportunity to communicate that with the incorporation of the new social and environmental requirements, the IR Recognition brand also has evolved to highlight the global trends of transparency while at the same time being more holistic by incorporating the value of sustainability. We invite you to consult the new Brand Manual in order to continue promoting this Recognition.

In accordance with the provisions of the contract and any subsequent modifications, we would like to remind you that the IR Recognition does not imply the certification of the content or the quality of the registered securities or the solvency, this must be noted by the entity whenever this brand is used. Instead it corresponds to the review of the formal accreditation of the requirements established in order to obtain recognition.

We appreciate the trust placed in the stock market by **ORGANIZACIÓN TERPEL SA** and we are sure that this Recognition will be of great benefit to you and the other market participants.

Kind regards.

Nicolás Mayorga Mora
