

➤ **IMPACTS OF VIVA AIR'S INSOLVENCY:**

Preliminarily, the potential effects expected for Organización Terpel S.A., derived from the suspension of the commercial operation with Viva Air, are mainly those related to the impact on sales volume, as follows:

- a. The impact on Terpel's sales is approximately 11% each month, which will be visible as of March 2023.
- b. In February 2023, the impact was less than 1% in total sales, due to the fact that the notice to cease operations was given on February 27, 2023.
- c. Viva Air sales represent 7% of the total market, so our sales volume is slightly more impacted than the total market.
